DOGS ARE PROPER.

The Supreme Court has recently decided that in our State a dog is personal property. The question as to whether a dog is property arose in a case against a railroad for the negligent killing of a dog, alleged to be worth \$70. Judge Watts, in the Circuit Court, sustained a demand to plaintiff's complaint, holding that a dog is not property. The Supreme Court reverses this ruling and sends the case back for a new trial.

BY THE JUNIOR EDITOR.

Mr. F. M. Allen, one of the proprietors of the Greenwood Journal and the South Carolina Baptist, has sold his interest in those papers to the Rev. A. McAdams. Pittman and the papers mentioned, will both, in the future, be edited and published by Messrs. Pittman & Gardner.

Mr. Allen has only been in the field of journalism since 1896, but during that time he has built quite a reputation for ability and integrity. He has nobled two of the best papers in the State. We regret to see him leave the field of journalism, but we feel sure that in the person of Dr. Pittman he finds a worthy successor, who is a man of much ability and energy, and who will fill well the place which he assumes.

Both the Journal and the South Carolina Baptist will be in good hands, while the said papers are under the control of Dr. Pittman and Gardner. Dr. Pittman has been the traveling agent for the South Carolina Baptist, since its establishment, and has proved himself to be a hard worker and a good man of parts. We feel sure that the Baptist, under the control of these eminent gentlemen, will not ignore the Baptists of Oconee as the Baptist Courier has seemingly done.

We welcome Dr. Pittman into the field of journalism and feel sure that the papers, which are to be under his control, will have abundant success.

Parsnip Complexion.

It does not require an expert to detect the sufferer from kidney trouble. The hollow cheeks, the sunken eyes, the dark, puffy circles under the eyes, the sallow parsnip-colored complexion indicates it.

A physician would ask if you had rheumatism, a dull pain or ache in the back or over the hips, or burning or scalding in passing it; if after passing there is an unsatisfied feeling, as if it must be at once repeated, or if the urine has a brick dust or sandy deposit.

When these symptoms are present, no time should be lost in removing the cause. Delay may lead to gravel, catarrh of the bladder, inflammation, causing stoppage, and sometimes requiring the drawing of the urine with instruments, or may run into Bright's disease, the most dangerous stage of kidney trouble.

Dr. Kilmer's Swamp-Root, the great discovery of the eminent kidney and bladder specialist, is a positive remedy for such diseases, and it is so easy to get at any drug store that no one need suffer any length of time for want of it.

However, if you prefer to first test its wonderful merits, mention THE KIDNEY CURE, and write to Dr. Kilmer & Co., P.O. Box 518, New York, for a sample bottle and book telling all about it; both sent absolutely free by mail.

Black Diamond News.

Another cablegram has been received from Hon. T. C. Dickinson, calling for some papers of the Kentucky line of the Black Diamond needed to close up the deal in London. These papers were promptly forwarded and will reach London by the first steamer. Unless something altogether unforeseen presents itself, this will complete all papers asked for by the syndicate, and doubtless contracts will be duly signed at an early day.—Dover (Ky.) News, April 21.

Hon. Wm. Kirkby, who has been going over the line of the Black Diamond in the South, will arrive here today, after having spent Sunday with his family at Toledo, Ohio. Three surveying corps are now in the field in South Carolina making the permanent survey. The work is progressing nicely there and the people are taking a deep interest. Col. Boone is now at Carlisle, Ky., closing up some business relative to the road and will arrive here in a day or so to look after the map work and other matters.—Dover (Ky.) News, April 27.

OLERO, ONTO, May 2.—It is announced that Toledo is to be the Northern terminus of the Black Diamond system. The road is to be built from Port Royal, S. C., and the entire distance is to be double-tracked. The system is also to have a line of lake steamers at this end and an ocean line from Port Royal to Liverpool. The estimate made of the cost of construction is \$50,000,000, and there will be no bonds issued, the entire capital being furnished by a British syndicate.

Anderson Advocate, May 1st: "Chief Engineer Greenhaw, of the Black Diamond, with Hon. J. L. Tribble, left this city Friday morning for Port Royal to begin the survey and location of the line."

Col. P. K. McCully, Chief Engineer Greenhaw and Mr. J. L. Tribble, representing the Black Diamond Railroad, arrived in Beaufort last Saturday. An informal meeting was had with prominent citizens to discuss the situation. The visiting gentlemen have made a good impression and Beaufort people are enthusiastic over the prospects presented.

INTERNATIONAL SUNDAY SCHOOL CONVENTION.
Delegates to the sixth international Sunday school convention, which assembled in Atlanta Saturday night after a most successful meeting, began to leave the city on Sunday, and those who did not leave Sunday took their departure Monday.

The convention, which has just closed, was one of the most successful in the history of the organization of the International Sunday School Workers, and was also one of the largest ever held. It was as interesting as it was successful, and the indications are that its results will be far reaching.

More than 1,000 delegates attended the convention, and these were entertained free of charge by the church people of Atlanta. Atlanta threw open her doors to the delegates and their impressions of the city were of a most flattering nature.

At this convention there was transacted probably more important business than ever marked any previous convention of a like nature, and the leaders are well pleased with their results.

The meetings in Atlanta began Tuesday with the session of the international lesson committee and closed Saturday evening with the final session of the convention. The first business meeting of the convention was held Wednesday evening, and three sessions were held each day until the close.

During that period a great number of important reports were rendered and the work for the next three years was mapped out by the executive committee.

The convention was marked by the large number of excellent papers that were read and addresses that were made. The delegates displayed unbounded interest and enthusiasm in the proceedings of the convention and the Grand opera house was filled with them every day. At times large numbers of visitors were turned away, being unable to find seats in the auditorium.

Atlanta was honored by the election of Hoke Smith as president. The delegates were entertained in Atlanta's usual hospitable manner and were well pleased with the city. Especially was this true of those who came from the far north, and had no idea that Atlanta was such a large and progressive city.

While the conventions of the coming years may be larger than the one held in Atlanta, it is hardly probable that any of them will prove as pleasant and so complete as much work.

The next convention will meet in Denver, Colorado.

Advice to Reunion Visitors.

CHARLESTON, May 3.—Intending visitors to the United Confederate Veterans' Reunion in Charleston next week are urged by the committee of arrangements to engage accommodations in advance of their arrival, and thus avoid the rush and inconvenience which will be experienced if they delay doing so until arrival in the city.

If intending visitors will write or wire R. P. Evans, chairman, at once, and stating their names exactly as to the number in the party and price of accommodations wanted, he will try to secure it. It is advisable that parties of four or more be made up for each room, as space for a single person or couple is very scarce and the committee can better arrange for the comfort and convenience of such or large parties of friends coming together, and at much more moderate prices. They are prepared to house in this way 25,000 more visitors at \$1 to \$2 per room, including lodging and board, and 50 cents to \$1 for lodging only, location governing prices.

At Nashville, Tenn., on Sunday, Malone Thomas, a suburban saloon keeper, shot and mortally wounded Policeman Dan Summitt. The officer had charged a gang of negro loafers away and Thomas became very angry and turned his bullet loose on the officer. Summitt shot the dog and Thomas then shot Summitt three times. One ball shattered his pistol hand, another broke an arm and the third ball passing through Summitt's chest from right to left.

ASK YOUR DOCTOR!
Ask your physician this question, "What is the one great remedy for consumption?" He will answer, "Cod-liver oil." Nine out of ten will answer the same way.

Yet when persons have consumption they loathe all fatty foods, yet fat is necessary for their recovery and they cannot take plain cod-liver oil. The plain oil disturbs the stomach and takes away the appetite. The disagreeable fishy odor and taste make it almost unendurable. What is to be done?

This question was answered when we first made

SCOTT'S EMULSION
of Cod-Liver Oil with Hypophosphites. Although that was nearly twenty-five years ago, yet it stands alone today the one great remedy for all affections of the throat and lungs.

The bad taste and odor have been taken away, the oil itself has been partly digested, and the most sensitive stomach objects to it rarely. Not one in ten can take and digest the plain oil. Nine out of ten can take SCOTT'S EMULSION and digest it. That's why it cures so many cases of early consumption. Even in advanced cases it brings comfort and greatly prolongs life.

THE NEWS FROM SENACA.
Seneca News Items at Office—Free Scholarship in Converse College.

SENACA, May 2.—It is expected that the Oconee News, under the editorship of Hon. E. E. Verner, will move to Seneca this week. Hopes that it will be eminently successful are entertained. The room formerly used by Mr. F. M. Cary as a cotton office has been rented for use as a printing office, and will be enlarged.

As Chairman of the Educational Committee of the South Carolina Federation of Woman's Clubs, Mrs. James H. Adams, of Seneca, has secured from President B. F. Wilson, of Converse College, a scholarship at this noted institution. The scholarship to be at the disposal of this body of women is a commendation to them as well as to the brilliant chairman of the Educational Committee.

The members of the Baptist denomination are fortunate in that their pastor is now a resident in their midst. Rev. D. W. Hoot and family moved here last week and were handsomely welcomed.

Mr. F. M. Cary, superintendent of the Presbyterian Sunday school, attended the International Sunday School Convention, held at Atlanta last week, and received much benefit from its sessions.

Mrs. W. J. Lunney has returned from a long visit to different parts of Georgia. Mr. and Mrs. Amos W. Adams and children, former residents of Seneca, but now living at Hartwell, Ga., spent a day or two of this week here.

Mrs. J. B. Brown has given up her boarding house and will board in the family of her son-in-law, Mr. J. H. Hamilton.

Miss Mary Gillison, of Richmond, spent last week with Mrs. W. O. Hamilton. Mrs. M. N. Sitten is on a visit to Williamston.

Mrs. Farmer has returned to her home at Anderson, after visiting Mr. and Mrs. W. S. Hunter.

Dr. W. H. Nardin, a prominent physician of Anderson, was the guest of Mr. and Mrs. J. H. Adams Friday night.

Mrs. W. P. Reid, Johnson Reid and Miss Mary Julia Reid will be absent from town some time, visiting Atlanta and Canton.

Mr. W. M. Hoke was in town Friday, returning to Atlanta from Anderson, where he went to attend the Heard-Nardin wedding.

Miss Margaret Tribble, a teacher at Sandy Springs, spent Saturday at the home of her uncle, Mr. R. M. Tribble.

It is a matter of regret to the many friends of Dr. E. A. Hines that he has been confined to the house several days with a slight illness.

Miss Bessie Wilson is spending a week with the family of her brother, Rev. S. L. Wilson, at Westminster.

Rev. W. T. Capers preached at the Episcopal church Sunday morning. Communion services followed the sermon.

John K. Livingston, who has been in Savannah during the cotton season, has returned to Seneca.

A number of the friends of Miss Frances Lowmy gave her a surprise party at her home Friday evening.

Mrs. J. B. Brown has gone to Anderson, owing to the extreme illness of Major A. R. Broyles at that place.

Seneca will probably send a large number of representatives to the approaching Confederate Veterans' Reunion at Charleston.

MARY E. SWANN.

SENACA, May 3.—A telegram was received here today announcing the death of Major A. R. Broyles, at Anderson, this morning at two o'clock. He resided in Seneca several years, where he had many friends who regret his sudden death. He was a native of Anderson county, but has resided in this county for the last twenty years. Major Broyles represented Oconee county in the Legislature one term. He was a just man and had the confidence and esteem of a wide circle of friends.

Many old soldiers now feel the effects of the hard service they endured during the war. Geo. S. Anderson, of Rossville, York county, Penn., who saw the hardest kind of service at the front, is now frequently troubled with rheumatism. "I had a severe attack lately," he says, "and procured a bottle of Chamberlain's Pain Balm. It did me good. I feel like I know what you would charge me for one dozen bottles." Mr. Anderson wanted it both for his own use and to supply it to his friends and neighbors. He said that he should have a bottle of it in the home, not only for rheumatism, but lame back, sprains, swellings, cuts, bruises and all other ailments. For sale by J. W. Bell, Walhalla, S. Gen. Hampton's Residence Burned.

The residence of General Hampton, just east of the city, was burned to the ground this morning between 2 and 3 o'clock. The flames were discovered by the sleeping inmates by reason of the smoke and heat, but luckily in time to save themselves as well as some of the furniture and household effects. The General had been unwell for several days and had to take to his bed. He was unable to walk and had to be carried to the burning house by colored men, who had been aroused, and placed in a chair at a safe distance away, where he sat and witnessed the flames slowly destroy his dwelling and much of his valuable contents. The fire originated at about the same place it did twice recently, kitchen part, one of which incipient fires the aged warrior himself stopped. The fire may have been of incendiary origin, though it is thought that more likely it originated from a kitchen fire. The fire was discovered by the General, who saw a light which at first appeared to him as being the break of day. He leebled to a door and found the flames were coming in from the door. The house was a valuable historical and personal papers kept in a desk. The library consisted of about 6,000 volumes, and some of the books burned cannot be replaced, among them being one printed a few years after the invention of the printing press. The General had a very valuable English saddle which he used throughout the war and which he prized very highly. This was lost. Much of the family silverware was lost. There was not a cent of insurance. General Hampton is living temporarily in a small house on the premises. The greatest sympathy was expressed by everybody over the serious loss to the General, and some enthusiastic old Confederates immediately began talking of building him another house, showing the deep regard they have for their old chief.—Columbia Record, May 2.

Information was received in Memphis, Tenn., Sunday night that Willie Seay, a negro aged about 30 years, was taken from the jail at Osceola, Arkansas, Sunday morning at 1 o'clock and hanged in the jail yard by a mob of forty men. Seay was in jail on a charge of barn burning. After being suspended in mid-air the negro confessed to the crime of which he was charged and he was then hanged. Several houses have been burned in the neighborhood of Osceola recently and this is given as the reason for the mob taking the law into its jurisdiction.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, **POTASH**, manufactured by the California Fig Syrup Co., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinally laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality, its pleasant taste, and its acting on the kidneys, liver and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from figs and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, remember the full name of the Company printed on the front of every package.

NEGROES TRY TO LYNCH FOREMAN.

He Made a Ruling to Which They Objected—Mob Whipped His House.

CHATTANOOGA, Tenn., April 30.—A crowd of forty negroes, employed at the Georgia limestone quarry, near the Georgia State line, at a late hour last night attempted to lynch their foreman, also a negro, whose name could not be learned.

The men went to the foreman's house, near the quarry, armed with pistols and guns and made an effort to get in the house, fairly riddling it with bullets.

Fortunately the house was located near the woods at the foot of Lookout Mountain and the foreman and his family escaped from the rear door into the side of the mountain, protected by the darkness, but were followed by a volley from the infuriated mob. Traces of blood were found this morning along the mountain at this point and it is believed that one or more of the family were wounded, and perhaps some of them were killed.

Owing to the isolation of the locality where the riot occurred there were no white officers to be had and the rioters have escaped arrest so far. The foreman had not returned at a late hour to-night. The men were angry with him because of some ruling he had made at the quarries.

Spain's Greatest Need.

Mr. R. P. Olin, of Barcelona, Spain, spends his winters at Alhambra, C. W. W. nerves had caused severe pains in the back of his head. On using Electric Bitters, men's greatest blood and nerve remedy, all pain soon left him. He says this grand medicine is what his country needs. All American knows that it cures liver and kidney trouble, stiff joints, blood, tones up the stomach, strengthens the nerves, puts vim, vigor and new life into every muscle, nerve and organ of the body. It is the only remedy you need it. Every bottle guaranteed, only 50 cents. Sold by all druggists in the country.

A Big Railroad Deal.

CHARLESTON, April 29.—The Southern Railway Company today closed a deal by which it gains control of the South Carolina & Georgia road and its leased lines, the Augusta Southern. The deal has been engineered by Vice President A. B. Andrews, of the Southern. The terms of the arrangement made have not yet been given out in detail, but it is semi-officially stated that the Southern has taken a 30 years' lease of the properties mentioned and will enter upon the control of them at midnight to-morrow. The price paid the Parson people for the lease is not yet known, but it is understood that the Southern will at once begin operating a double daily service between this city and Greenville and Columbia.

The lease of the South Carolina & Georgia to the Southern carries with it absolute control of the Augusta Southern line, but the Ohio River and Charleston, and the other leased line of the South Carolina & Georgia road, is not included in the deal. Oreha was at once issued from the Washington and New York offices of the Southern system, continuing existing officials of the leased lines, service and directing them to report to the proper departments of the Southern.

The deal is regarded here with much favor by the business interests of the city, especially as assurances have already been received that Charleston is to be made a leading railway center. Vice President A. B. Andrews said to-night that the South Carolina & Georgia would be equipped at once with state-of-the-art, the most improved rolling stock. Through passenger trains will be put on between this city and the Piedmont section of Carolina, and the freight service, via Asheville, will be inaugurated between this port and the Mississippi valley. All indications point to the fact that Charleston is about to become the leading South Atlantic port of the Southern Railway system.

The Reflections of a Married Woman—Are not pleasant if she is delicate, run-down, or overworked. She feels "played out." Her smile and her good spirits have taken flight. It worries her husband as well as herself. There is the time to build up her strength and cure those weaknesses or ailments which are the result of her trouble.

Dr. Pierce's Favorite Prescription regulates and promotes all the proper functions of womanhood, improves digestion, enriches the blood, dispels aches and pains, melts away fat, and restores health and strength. It's a safe, reliable agent, a tonic and nerve food, designed by a regularly practicing, experienced and skilled specialist, to cure those disorders and derangements incident to womanhood. Its sales are second by far those of all other medicines for women.

SENACA, N. Y., May 2.—The Rev. A. J. Callus preached last night at the A. M. E. Zion church, colored, on the racial troubles in the South.

He said that the white women of the South had not protected their own chastity. He made a plea for the organization of colored men; said that 250,000 men were sold to carry arms and predicated that if the murderers of colored men in the South did not cease there would be a conflict between the black and white men of the South. He said that his brethren in the South looked to the North for salvation.

Mr. Wanton S. Carr, who for years was connected with Wright's hotel and was well known throughout the State, died at 4 o'clock this morning. He had been in bad health for a year or two and after so long a service as hotel clerk was compelled to give up business.

Columbia Record, May 2.

Near Lowndesboro, Ala., last Saturday evening, Sam Powell was instantly killed by Frank McCoy, both colored. The dispute arose from the umpire's decision in a baseball game. The evidence seems to show self-defense and in the preliminary examination it is thought McCoy will be acquitted.

Mr. Anna E. George, of Canton, Ohio, was tried for the murder of G. D. Saxton, the brother of Mrs. McKinley. The trial lasted 22 days. The jury deliberated on the case nearly 24 hours and acquitted her. She was the heroine of the hour. It is not stated whether she will go on the stage, write a book or marry.

One mile above Lafayette, Ga., on the farm, Capt. A. L. Snow, postmaster at Lafayette, was struck by a freight train Monday morning and instantly killed. He was trying to get on a runaway team and attempted to cross the track when he was struck. His neck and arm were broken and his body was badly mangled.

Mrs. M. L. Mandaray, a wealthy lady of San Antonio, Texas, wife of a Hungarian nobleman, who was banished from his country twenty-five or thirty years ago, was murdered and her body buried in that place last Sunday. Robbery is believed to have been the incentive, and a Mexican murderer, who worked on the Texas and Pacific railroad, was caught. Mrs. Mandaray's home was found to be in the rear of about 2 o'clock A. M., and in the rear body was found badly charred and covered with knife wounds.

At Skagway, Alaska, the Chilkat Indians are on the war-path. Last Sunday 200 bullets, armed with rifles, gathered in the Chilkat valley along the Chilkat river and many of the Rocky Point, eight miles from Haines' Mission, where eight white men were blasting rock for a trail to Klondike, a distance of twenty-five miles. The Indians drove the whites away. It is understood that parties who are opposed to the construction of the new great line have incited the Indians to make trouble. United States troops have been sent to the scene.
